Hello Becky, Eric, and David:

Please see the attached midyear compliance and enforcement report for California. The data provided in the spreadsheet is for inspections and enforcement actions performed in between the first half of state fiscal year (July 1, 2019 to December 31, 2019).

Also, attached is the permit backlog for California as of the end of mid fiscal year (December 31, 2019). The spreadsheet contains the universe of individual, general, and MS4 NPDES permits in California. All permits listed in the spreadsheet are current. Permits past their stated expiration date are listed as "expired", permits within their stated expiration date are listed as "active".

For any questions regarding how information was compiled for both spreadsheets, feel free to contact me at any time.

Thanks,
-Gur Chand
